Memory Foam Products

Reduce Gravity...Relieve Body Pain & Snoring

Memory foam was originally created by NASA to reduce the pressure due to very high gravitational-force during the take-off of space shuttle. The cell structure of memory foam reacts to body heat and weight by molding to body shape and evenly distributing body weight.

Features and Benefits

- Relieve pressure points
- Provide comfort and stability
- Prevent neck & shoulder pain
- Reduce snoring
- Hypoallergenic resistant
- Dust mite resistant
- Highly resilient material
- Improve quality of sleep

We are also pleased to introduce selective Thailand's innovative exporting products for travelers such as : light-weight baggage, microfiber towel, sunglasses, automatic umbrella, memory foam neck pillow, and more. These high quality products of Thailand are on par with the world's top brands exported to Japan, Europe, and U.S.A
